

CONSENT FORM

Thank you for your interest in participating in our study to help improve our product for our users.

In the 45-minute study, we may record and photograph you and your actions interacting with the mockup (*simulated mobile application*) while you complete a set of tasks, where possible your face will be hidden from the camera.

We may collect and store this data, including a limited amount of personal information such as your name, age, designation, etc.

The primary purpose of this usability study is to improve an internal application that will be used at Hong Kong Tree Watch and help NGO's that may use our application. Your data will be collected to help us decide how to improve the product experience and perform data analysis.

- We will not share your details with third parties.
- Your involvement is entirely voluntary.
- You can stop the test at any time and are not obliged to perform or finish any tasks.
- You are not required to give personal information.

Consent

I agree to participate in this usability study for HK Tree Watch I understand that the study may be photographed and recorded, and my interactions with the mockup may be collected and used to improve the product.
